The Mexican Government Orders Arms from America for the Troops at Saltillo.

MEXICO.
PREPARATIONS FOR WAR.

SAN ANTONIO, TEX., Dec. 11.—For some time trouble has been expected in Saltillo, Mex., where a revolution has been imminent and several small breaks have already occurred. The Mexican government is making preparations for an emergency. Yesterday an order was received by Landa Bros. of this city to purchase for the government at once and deliver as soon as possible one hundred Winchester carbines and four thousand rounds of ammunition for them, and the order was telegraphed yesterday morning to the Winchester factory. This would indicate that a serious outbreak in Saltillo is imminent, although the Mexican officials are very reticent and reluctant to admit it. The latest improved weapons are to be furnished the troops there. The latter are at present armed with very poor weapons and some of them are without firearms of any description.

THE SOUTH AMERICAN COMMISSION.
CITY OF MEXICO, Dec. 11.—The South American commission start for New Orleans next week, having concluded their labors here. The results of their visit are highly satisfactory. President Diaz having taken great personal interest in the work of the commission. The members of the commission are highly gratified at their hospitable reception by the Mexican authorities. The two governments are in full accord regarding all the important points. Great mutual advantages are anticipated as the result of the visit of the commission.

GREAT BRITAIN.
GOVERNMENT DYNAMITE PLOTS.

DUBLIN, Dec. 11.—The United Ireland says it has fresh evidence that James McDermott is an emissary in the pay of the police. The outrages he has planned are a part of a conspiracy directed from Dublin castle to bring discredit on the Irish race. The paper reiterates the charge that the Edenbarn house at Tralee was blown up with an infernal machine, which was one of the three sent to County Kerry by McDermott, and which had been purchased with British gold.

The United Ireland further says that it has good reason to believe that a large number of the dynamite outrages which have been charged upon league organizations were really the outcome of plots inspired by fellows like McDermott, who, being in the pay of the authorities, managed to retain their securities by devising and abetting outrages.

AN AMERICAN ELECTION FUND.
